

WOODBIDGE PRIMARY SCHOOL

CONSENT FOR THIRD PARTY SERVICES 2021

As of 2021 we are required to seek parental consent to use websites and applications with students in the teaching and learning program. This can be any site or application where names of students may be entered, including those programs we already have subscriptions for across the school or across phases within the school. These websites or applications are known as third-party services.

The following list of third-party services are being used in our school and may or may not be used in your child's classroom. These have undergone extensive investigation by the Department of Education. The Department has then rated the services as **'No Consent'** (parent consent not required, as there is very little risk identified), **'Bundled Consent'** (these services can be grouped for consent purposes, as there may be minor risks associated) and **'Explicit Consent'** (these services may have some security or privacy risks and therefore parent consent is required for each service listed).

Please ensure you read, and then sign for permission to be granted for use and return to your child's teacher. If you do not sign and/or return the form, your child may be excluded from using these services whilst at school. Additional information is also available on the school's website in regard to these services. Please contact your child's teacher in the first instance if you have any queries.

Bundled Consent Services (Your consent here will allow your child access to the programs in the table below)

Service	What is the service?
