

Additional Information in regard to Third Party On-Line Services

As of 2021 we are required to seek parental consent to use websites and applications with students in the teaching and learning program. This can be any site or application where names of students may be entered, including those programs we already have subscriptions for across the school or across phases within the school. These websites or applications are known as third-party services.

The following list of third-party services are being used in our school and may or may not be used in your child's classroom. These have undergone extensive investigation by the Department of Education. The Department has then rated the services as '**No Consent**' (parent consent not required, as there is very little risk identified), '**Bundled Consent**' (these services can be grouped for consent purposes, as there may be minor risks associated) and '**Explicit Consent**' (these services may have some security or privacy risks and therefore parent consent is required for each service listed).

The following information is considered additional information for parents/carers and outlines how the information may be used and where it may be stored.

Service	What is the service?	What information is provided and how does it get used?
